

## **Radiation Safety Class Schedule**

The 32 hour coronal polishing course consists of the lecture, classroom instruction and clinical experience in the dental employment office or dental facility that allows the exposure, processing and mounting of dental x-rays. Lecture is offered through a home study program. The **one day of classroom instruction** will consist of practicing exposing, processing and mounting x-rays on a manikin and one clinical patient. Three full mouth surveys will be completed in your dental employment office or a dental facility that will allow you to expose dental x-rays.

Classroom hours are from 8:00am - 5:00pm
