

Radiation Safety Class Schedule

The 32-hour radiation safety course consists of classroom instruction, home study program and clinical experience in the dental employment office or dental facility that allows the exposure, processing and mounting of dental x-rays. Theory is offered through a home study program. The **one day of classroom instruction** will consist of practicing exposing, processing and mounting x-rays on a manikin and one clinical outpatient. Three full mouth surveys will be completed in your dental employment office or a dental facility that will allow you to expose dental x-rays.

**New Legislation Requires Change!!
 EFDA's Courses Now Being Re-accredited
